

Analytical Chemistry Experimental Course (institutions of higher learning teaching environment class series)

By ZHANG XUE JUN

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 256 Publisher: China Environmental Science Pub. Date :2009-01-01 1st edition 1st printing 2009-01-01 This book is analysis of chemical engineering (including instrumental analysis) courses supporting the theory of experimental materials. The book is divided into four. introduces the basic knowledge of analytical chemistry experiments. analytical chemistry experiments and chemical analysis and the basic operation of the basis for instrumental analysis experiment. experiment. and selected other aspects of experimental design. From the analysis of content analysis and experiments involving non-polar organic analysis. component analysis; from the analysis methods include chemical analysis and instrumental analysis methods commonly used in the analysis. the instrument used by both general analytical chemistry laboratory is equipped with conventional analytical instruments. but also modern equipment. with different experimental conditions and thus suitable for the institutions choose to do. Contents: first the basics of analytical chemistry experiments chemistry experiments analyzing the first chapter the basic requirements of Chapter II section students basic knowledge of chemistry experiment experimental laboratory safety rules Code Section III Section IV experimental reagents and analysis of water containers V solution preparation...

Reviews

The ebook is not difficult in read through easier to comprehend. Of course, it is perform, nonetheless an interesting and amazing literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dr. Haylee Grimes PhD

Thorough guide for ebook lovers. I am quite late in start reading this one, but better then never. Its been designed in an remarkably straightforward way which is simply soon after i finished reading this publication in which actually altered me, affect the way i think.

-- Gunner Labadie
